RE: Records Search for Canyon Hills Manor Wedding Chapel EIR, City of Anaheim,
Orange County, California

Dear Mr. Brechbiel,

As per your request received on July 15, we have conducted a records search for the above referenced project. This search includes a review of all recorded historic and prehistoric archaeological sites within a one mile radius of the project area as well as a review of all known cultural resource survey and excavation reports. In addition, we have checked our file of historic maps, the National Register of Historic Places, the California State Historic Resources Inventory, the California Points of Historical Interest, and the listing of California Historical Landmarks in the region. The following is a discussion of our findings for the project area.

PREHISTORIC RESOURCES:

Twelve prehistoric sites have been identified within a one mile radius of the project area (see enclosed map). None are within the project area. The following are the site numbers:

30-000614, 30-000818, 30-000819, 30-000945, 30-001067, 30-001244, 30-100116,
30-100117, 30-100118, 30-100119, 30-100120, 30-120010

HISTORIC RESOURCES:

No historic archaeological sites have been identified within a one mile radius of the project area.

Inspection of our historic maps – (Anaheim 1896 and 1942) 15' series – indicated that in 1896 there existed a loose network of improved roads with a sparse scattering of structures in the vicinity of the project area. The San Diego and San Bernardino Branch of the Atchison, Topeka, and Santa Fe Railroad was in place. The Santa Ana River figured prominently in the vicinity of the project area. In 1942, there were additions of

improved and unimproved roads and structures. State Routes 14, 18, and 55 were in place. Many tributaries of the Santa Ana River were marked.

The California State Historic Resources Inventory lists no properties that have been evaluated for historical significance within a few blocks radius of the project area.

The National Register of Historic Places lists no properties within a one mile radius of the project area.

The listings of the California Historical Landmarks (1990) of the Office of Historic Preservation, California Department of Parks and Recreation, indicate that there are no California Historical Landmark within a one mile radius of the project area.

The California Points of Historical Interest (1992) identifies no properties within a one mile radius of the project area.

PREVIOUS ARCHAEOLOGICAL INVESTIGATIONS:

Sixteen surveys and/or excavations have been conducted within a one mile radius of the project area (see enclosed map and bibliography). One of these (OR752) is within the project area. Six additional investigations are located within the Orange, Black Star Canyon, Prado Dam, and Yorba Linda quadrangles and potentially within the project area. These investigations are not mapped due to insufficient locational information.

Please forward a copy of any reports resulting from this project to our office as soon as possible. Due to the sensitive nature of site location data, we ask that you do not include record search maps in your report. If you have any questions regarding the results presented herein, please feel free to contact our office at (310) 825-1980.

Invoices are mailed approximately two weeks after records searches are completed. This enables your firm to request further information under the same invoice number. Please reference the invoice number listed below when making inquires. Requests made after invoicing will result in the preparation of a separate invoice with a \$15.00 handling fee.

Sincerely,

Grace Wu
Information Center Staff
